LS 8040

BILL NUMBER: SB 431

DATE PREPARED: Jan 31, 2001

BILL AMENDED:

SUBJECT: Sharing of Dental Care Information.

FISCAL ANALYST: Kathy Norris

PHONE NUMBER: 234-1360

FUNDS AFFECTED: X

**GENERAL
DEDICATED
FEDERAL**

X

IMPACT: State

Summary of Legislation: This bill requires each county Office of Family and Children to provide to specified entities a list of dentists in the county who participate in the Medicaid Hoosier Healthwise Program. The bill requires the Division of Family and Children to collaborate with the Office of Medicaid Policy and Planning and the State Department of Health to establish programs that facilitate children's access to oral health services. The bill defines "mobile dentist". It requires a mobile dentist who provides dental services to a child to refer the child to a dentist in the county, or a county adjoining the county, in which the services took place.

Effective Date: July 1, 2001.

Explanation of State Expenditures: The bill requires the Office of Medicaid Policy and Planning to provide each county Office of Family and Children with a list of dentists practicing in the county who provide services to Medicaid or CHIP-eligible children. The local Office of Family and Children is required to provide this list to local children's services providers such as Maternal and Child Health Clinics, school nurses, and licensed child care centers. The Hoosier Healthwise Helpline (1-800-889-9949) and the Indiana Family Helpline (1-800-433-0746) run by the Department of Health both maintain current comprehensive lists of the Indiana Health Coverage Program enrolled dental providers in each county. If the county Offices of Family and Children were required to distribute this provider listing, the information would be out of date quickly since the Indiana Health Coverage Programs enrolls and disenrolls providers daily. The provision of paper lists that are quickly out of date to all the required entities would lead to higher copying, distribution, and other administrative costs. The extent of the increased distribution and copying costs would be dependent on the number of providers that the county offices distributed the lists to and the frequency of the distributions.

The bill requires the Division, the Office of Medicaid Policy and Planning, and the State Department of Health to collaborate to establish programs that facilitate children's access to oral health services.
